SKILLS

JavaScript | AngularJS | Angular Material | jQuery | HTML5 | CSS3 | Twitter Bootstrap | Node.js | Express.js | MongoDb | PostgreSQL | Amazon Web Services (AWS) | AWS.S3 | Firebase | Web APIs | REST APIs | AJAX | Git | Github | Public Speaking | Management | Sales | C++ | Balsamiq

CONTINUED LEARNING

Started and am currently maintaining a weekly hack-a-thon | Daily commits to a portfolio website www.caseyhydedev.com | Built Conway's Game of Life (Angular/JavaScript) | 30 day GitHub challenge (commit-a-day for 30 days on something new (C++ and mastering VIM)) | AngularMN Meetup | Javascript MN Meetup | AWS_MN Meetup | NodeMN Meetup

PROFESSIONAL EXPREIENCE

Prime Digital Academy

Full Stack Software Engineering Student
October 2016 – January 2017

- Intensive, immersive, full-time 18-week software engineering program.
- Focus on MEAN stack.
- Weekly public speaking engagements (Toastmasters).
- Multiple collaborative projects using Git.
- Solo Project:
  - Full stack web application using the MEAN stack.
  - Stores and searches through location specific skateboarding spots.
    - Uses custom Angular directive to model and send multiple images to server simultaneously.
    - Multer & Multer.S3 for handling multipart forms received via http and sent to AWS.S3.
    - Node.js/Express.js Back End with a Mongo Database hosted on mLab.
    - Server uses SendGrid API for email verification.
    - AngularJS and Bootstrap front end.
    - Collaboration managed via GitHub and GitHub projects.
- Group Project:
  - MEAN stack application for local commercial drapery company.
  - System for surveying job sites, storing measurements/quantities/related files.
    - Employs Firebase and AngularFire for user authentication.
    - AWS.S3 file upload/retrieval (similar to Solo Project usage).
    - PostgreSQL database (hosted through Heroku).
    - AngularJS front end with Angular Material.
    - Node.js/Express.js server.
- Think: Coding Boot-Camp.

Bite Squad

Assigner
June 2016 – Current

- Live assigning of orders to restaurants and drivers to orders.
- Manage drivers/restaurants in upwards of 6 markets simultaneously.
